Our Integrated Preschool Program is a lottery system with a limited number of slots. The preschool application opens in early spring, and each child will have an opportunity to be screened. Once your child's slot is confirmed, we will send you a letter from the Office of Student Services asking you to complete registration online. This includes providing proof of residency, a birth certificate, current physical and immunization records, and any previous school records. After your registration is approved, a class roster will be created, and the school principal will send out information about a meet-and-greet and orientation a week or two before the start of school.
